AACRO Computer Systems / Print Shop Manager Partner With BASYS Processing To Deliver a Complete Financial Solution for Printing Establishments

All-In-One Estimating, Pricing, Accounting, Invoicing, and Payment Collection

Acworth, Georgia, February 17, 2021 – AACRO Computer Systems has teamed up with BASYS Processing to give *Print Shop Manager* users access to a simple invoicing and payment collection solution. This strategic partnership combines AACRO's fast and easy to use pricing and accounting software solution with BASYS' convenient and user-friendly payment processing capabilities. The result is an end-to-end user-friendly estimating, pricing, accounting, invoicing, and payment collection system for printing establishments.

"Adding a credit card processing service is something we have considered for several years." said Rich, CEO of AACRO Computer Systems. "When we were introduced to BASYS, I knew we had found a company that we could be confident in to provide service and support for our customer base. This will be a great time saving service for the *Print Shop Manager* users."

"The prospect of partnering with AACRO Computer Systems is something we have been excited about since day one," said Brad Oddo, BASYS Processing's founder, and CEO. "We are looking forward to providing our personalized service and passion to the customers of an elite custom solution, *Print Shop Manager*."

About BASYS Processing

BASYS Processing makes accepting credit cards and debit cards convenient, safe and affordable. We provide services and solutions that include countertop, mobile and virtual terminals, point-of-sale systems, as well as e-commerce and software integrations. We are dedicated to working one-on-one

with our customers to design the perfect solution for their business. BASYS was founded in 2002 on one philosophy: to take care of our merchants, partners, and employees so they never want to leave. For more information, visit www.basyspro.com.

About AACRO Computer Systems

AACRO Computer Systems is a professional software development company that was established in 1985 to service the Atlanta area. We have built custom solutions for pricing, estimating, order entry, order processing, inventory management, automation, communications and accounting solutions for a broad spectrum of manufacturing and sales organizations, and we have been responsible for dozens of major programs that run at the core of the companies we service.

In 1999 while working with a quick print franchise company we started the development of Print Shop Manager. We enlisted the help of several printers who had proven track records in the printing business to act as experts in defining what a print estimating system should be like. Over the years Print Shop Manager has been honed and built up into today's tool of choice for many successful print shop owners.
